

NEWARK, OHIO, MONDAY EVENING, NOVEMBER 18, 1918

Prince later Frederick, son of the former emperor has appealed to the committees of the Potsdam garrisons to place themselves at the disposal of the new government in Germany.

NEWARK TO HAVE EASTERN TIME

Washington Commission Moves Time Zone Boundary Westward To Include Most of State.

Newark will soon be called upon to change her clocks again. Under a new standard time zone adopted by the interstate commerce commission at Washington, the former boundary line between the eastern and central standard time belt was moved westward far enough to include Newark as well as a large number of other cities.

The new arrangement becomes effective at 2 o'clock a. m. next January.

An Associated Press dispatch from Washington giving the details of the change says:

"New and official boundaries for time zones in the United States, unifying existing lines and moving them slightly westward, were announced today by the interstate commerce commission to become effective at 2 a. m. January 1, next. This order is pursuant to the daylight saving act, which in addition to authorizing an advance of the clock during the summer, provide for permanent United States standard time and requires the commission to define the limits of the standard zones which previously had been fixed only by custom of cross continent railroads or by local law.

"The line fixed by the commission separating the eastern and central time zones beginning at the Great Lakes following the boundary of Michigan Toledo, Fremont, Clyde, Bellevue, Monroe, Willard, Shelby Junction, Mansfield, Gallon, Marion, Columbus, Lancaster, Dundas and Gallipolis, Ohio, Huntington, Kenova and Williamson, West Virginia, Dunganon, Va.; Eris, Tol, Va.; Telford, Tenn.; Asheville and Franklin, N. C.; Atlanta, McDonough, Macon, Perry, Americus, Albany and Thomasville, Ga. The north boundary of Florida to river junction and the Apalachicola river to the gulf of Mexico."

SHE'LL CARE FOR NEW K. OF C. HOUSE

Miss Josephine Foley.

Miss Josephine Foley, who is a sister-in-law of the famous John McCormack, is to leave soon for London to take charge of the Alton House, the residence which her sister, Mrs. McCormack, has turned over to the Knights of Columbus.

Cat Mothered Chicks.

There is an authentic story of a male and a female cat in France that lived on terms of perfect amity with all the animals on the place—dogs, chickens and what not. It so happened that a hen which had a brood of seven chickens was killed accidentally. The cat, which some two weeks before had been deprived of her kittens, appeared to observe the predicament of the seven little chickens. She crawled into their nest, and the chickens, looking for warmth, nestled into her warm fur, peeping gratefully. The chickens, fed by their owner, thrived perfectly, and every day the strange sight was presented of their following the mother cat about the premises, as if expecting her to find them food after the manner of a hen.

Be Steadfast.

The truth is that there is no elation so deep, and no exultation so long sustained, as that of the man with the steadfast face. Many a man has passed into the way with the thought that he was opening a door into a narrow and high-walled lane. The door has opened, to his delight, into a garden of beauty and of peace. The acceptance of a heavy burden, the acquiescence to "the crook in the lot," the choosing of the path that leads to a cross gives a liberty to the thought, a largeness to the view, an animation to the spirit, which is as far above the calm of a stoical temper as the sunshine of a June day is brighter than a gray December night.

Indigo Now Easy to Obtain.

There was considerable labor in the first methods of obtaining indigo. Seeds for the shrubs were sown and after the plants had reached their full height they were cut and carried to the factory. Here they were laid in a stone cistern. Then hordes were placed upon them and heavy beams laid across the former and secured to the sides of the vat, the object being to keep the plant down when they swelled. Then followed several other laborious processes. It took fifteen years for one man to learn to make indigo, and it required twenty years more to put it on a factory basis. But now, by employing naphthalene (the substance of moth balls) enough indigo can be synthesized to make the output of the growers of the substance in India seem insignificant by comparison.

Common Superstitions.

The canary is a prophet of evil when it remains silent after being accustomed to sing cheerfully. The call of the cuckoo has always been mixed up with good and bad luck. Hear it while walking, and—provided it is the first time you have heard it that year—it means a happy year for you. Turn the money in your pocket and wish, and your wish will be realized, so many folk believe. When the farmer's wife sets eggs she will place an odd number in the nest if she wants her chicks to prosper. As a rule, she will not bring eggs into the house after sunset, neither will she sell them after sundown. As for burning eggshells, that is to ask the hens to lay no more eggs. Peacock's feathers in a house mean misfortune, but for an eagle to hover over a person or house means an approaching success.

Gasoline Street Sweepers.

The new gasoline street sweepers operate so quickly and so cheaply that they threaten to do away entirely with the old horse-drawn apparatus. One three-wheeler, gasoline-driven machine is counted equal to four horse-drawn sweepers. It clears the street to within 16 inches of the curb at a cost of seven cents a thousand yards.

Some people couldn't even drive a nail without doing crooked work. You never can tell. Even modest loses its charm when people boast of it.

Inez May Moran, who states that she was 15 years of age on Sept. 19, 1918, has filed a suit in the probate court through her mother, Minnie Phillips as her next friend, against Elzie Ray Moran.

The petition states that they were married at Mt. Vernon, O., April 1, 1918, and that the defendant has been guilty of gross neglect of duty and cruelty; that he has struck and threatened to kill her and that his conduct became such that she was forced to leave him on Oct. 19, and that the defendant has threatened the plaintiff unless she returns.

The plaintiff asks for a divorce and that she be restored to her maiden name and that temporary alimony be awarded and that she be granted a share in the property of defendant.

Gair, of Cleveland, was so severely injured that he died an hour later, when a giant fire cracker which they had made out of a piece of pipe and a hand grenade exploded prematurely today.

The men filled one end of the pipe with clay and put a fuse to the other end. They attempted to light the fuse with a burning newspaper, saw that it would explode prematurely and attempted to run out of danger. Demetri was badly mangled.

A fact:

From all accounts, the most eagerly sought-for cigarette among American soldiers abroad is Fatima. Exact figures to prove this are not available; but, in view of Fatima's known popularity with both officers and men still in training on this side of the water, it would seem to be correct. Below are printed a few typical reports on training camps and army posts, received from our salesmen last month:

- FORTRESS MONROE, Old Point Comfort, Va.: "Fatima leads in sales"
- WEST POINT, Officers' Club: "More Fatimas smoked than any other cigarette"
- ROCK ISLAND ARSENAL, Rock Island, Ill.: "Fatima is second best seller"
- CAMP MERRITT, Dumont, N. J., Officers' Club: "Fatima is largest-selling cigarette"
- CAMP ZACHARY TAYLOR, Louisville, Ky.: "Fatima is most popular high-grade brand"
- CAMP UPTON, Yaphank, N. Y.: "Fatima is called here 'the officers' cigarette'"
- CAMP GORDON, Atlanta, Ga.: "Fatima is one of the best sellers among the better brands"
- CAMP SHERMAN, Chillicothe, Ohio: "Fatima is second biggest-selling cigarette"
- CAMP MORGAN, Mobile Bay: "Fatima is leading seller here in its class"
- FORT WADSWORTH, N. Y.: "Most officers smoke Fatimas; very popular also among the men"
- FORT SILL, Oklahoma, "School of Fire": "Fatima is second in point of sales"
- CAMP SHERIDAN, Montgomery, Ala.: "Fatima outsells all other high-class brands"
- FORT RILEY, Kansas, Medical Officers' Training Camp: "Fatima is by far the biggest-selling cigarette in camp"

FATIMA

A Sensible Cigarette

Army training makes the mind quick and alert; and army men—exactly like quick-minded civilians—naturally choose a cigarette, not alone for its good-tasting qualities, but also for the fact that it does not disturb a man in any way, even if smoked—as so many soldiers do—almost steadily throughout the day.

Camera Detects Bad Eggs.

Bad eggs are unflinchingly detected by the camera. This has been demonstrated in France, where experiments are being conducted with a photographic egg-testing apparatus, says Popular Mechanics Magazine. The idea of utilizing the camera instead of the human eye for candling is a new one. So far it has not been carried past the laboratory stage; but even though its obstacles prevent its commercial utilization at present, it is of more than passing interest. Eggs are held in a half dozen oval holes provided in a metal plate. Their large ends point toward a common center. While intense light is passed through them, they are photographed. A powerful lens is used and an exposure ranging upward to three minutes is made. The result is a picture that shows the size of the air chambers in the eggs.

INCREASED GAS RATE IS AGAIN DISCUSSED

A meeting to discuss the proposed increase in the price of natural gas was held in the council chamber Sunday afternoon and was well attended. The gas company was represented by Louis E. Carl, agent of the Newark natural gas and fuel company and attorney James R. Fitzgibbon. The company is seeking an increase of from 30 to 38 cents, with three per cent discount. Bernard Balzer and Guy Billingsley spoke in favor of granting the increase while it was opposed by a number of labor leaders including Wm. M. Morgan, Frank Muenz, W. A. Archer and several others.

The company also asks in addition to the increase that there be a minimum pay of 2,000 cubic feet per month, that is that 70 cents per month must be paid by the consumer whether used or not. The matter will probably be introduced in the city council in form of an ordinance. The company claims that all cities being served by the Logan company are paying the rate.

GIRLS TO SELL TAGS FOR LIBRARY BENEFIT

Newark's public schools are taking an active interest in the maintenance of the public library and will assist in various ways in raising funds for the institution.

Among the plans to raise funds is the "tag day" to be staged Saturday by the Thalian literary society. In a statement endorsing the tag day, Superintendent Barnes says: "The public library is one of the greatest educational institutions in the city. The city council provides in the budget sufficient funds to pay for the help necessary to operate the library, but there is no way except by public subscription to take care of its growth and upkeep. Consequently the public schools of the city, realizing the great benefit derived from the use of the library on the part of the people of Newark, have undertaken the task this year of giving the library a big boost. Principals H. P. Moringer has announced that the proceeds of the lecture course will go to the library. This amount will be from \$200 to \$300.

The Thalian Literary society of the high school will put on a "tag day" next Saturday and every cent collected above cost of printing tags will go to the library. The young women of this society are enthusiastic over the work, and deserve the support of the public in this public undertaking. Let the citizens of Newark respond nobly and in large measures."

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong Bisulphate or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dizziness" and that lary feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

COMFORT SHOES FOR HOUSE WORK

There is an old saying that a man's work is from sun to sun, but a woman's work is never done.
A woman takes a great many steps each day about her housework; she is standing a great deal of the time. No wonder she feels exhausted, sometimes, at the end of the day. Particularly when she has been wearing an old pair of shoes, designed for anything but the use to which they are put.
When a woman spends the day, or her working part of the day, in a pair of run down shoes designed originally to be worn on dress occasions, it is anything but economy. It means exhaustion, nerves and drooping spirits.
There is no element of guesswork in selecting our Comfort House Shoes. We understand our business perfectly and we work on a certainty, giving our patrons comfortable and satisfactory house shoes.
We are showing at this time a very complete line of Feet Footwear. Boudoir Slippers in many colors. Agents for Dan's Green's Comfy's.

BIRDS STEAL SEEDS OF PRIZE TOMATO

Parolman William Hinger would like to have some one furnish him with tomato seeds for his garden next year, and there's a reason. Several days ago August Welch, who raises some of the best tomatoes in the state, presented Hinger with two giant tomatoes each almost as big as a peck, and informed the officer that if he would let them set until the skin dropped off and then extract the seed, he would have enough next spring to raise a car load. Mr. Hinger watched them for several days and finally secured the seeds from the vegetables and spread them upon a big platter and placed it out in his yard to dry. When he came home that evening not a seed remained, the birds having eagerly devoured all on the platter. Mr. Hinger states that the next time he endeavors to dry seed he will send the canary bird to a neighbor's and dry it behind the kitchen range.

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When cross, feverish and sick give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become "lightly clogged" with waste. Liver gets sluggish, stomach sour, then your little one becomes cross, half sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhea. Listen Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well playing child again.

Millions of mothers give "California Syrup of Figs," because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt. (Adv.)

BANISHED EVEN HIS RHEUMATISM WITH OTHER ILLS

Veteran Louis F. Menough Tells Striking Nerv-Worth Story.

And the other ill was serious and deep-rooted. All the more credit is due to Nerv-Worth. But let Mr. Menough tell why, as he did to the Nerv-Worth druggists at Sandusky.

The Graham Drug Store—For many years and since coming to the Soldiers' Home, I have been troubled with stomach trouble, indigestion and was very nervous and did not get any restful sleep. My appetite was poor owing to indigestion and was losing strength. Have suffered from rheumatism for years. Very painful in my knees and legs.

I saw Nerv-Worth advertised and procured a bottle. From the first two doses I took I had a fine night's rest and did not wake up until four in the morning. The first good restful sleep in years. Stomach trouble, indigestion, rheumatism and constipation no longer bothered me and I am a happy man to be able to say this. I feel better in many ways than I did ten years ago. I strongly recommend Nerv-Worth, as it proved a blessing to me and I won't be without it. My age is 75.

FLU TAKES HEAVIER TOLL THAN BATTLES

Washington, Nov. 18.—The influenza epidemic in the United States reaped a bigger death harvest than the great war did in the American armies, according to the latest figures issued by the government.

The war casualty list, including the list released Nov. 17, places the total war deaths at 27,789, which compilation includes those lost at sea, those who died of natural deaths, who were killed in action or died of wounds outside the United States, while the deaths due to influenza and pneumonia following influenza from Sept. 14 to Nov. 10 in the United States total 82,506, or three times the number of overseas war casualties.

Paris, Nov. 17.—(Havas).—Germany's debt to France is estimated at 340,000,000 francs by the Matin in an editorial. The newspapers apportion the debt as follows: Return of the indemnity of 1871 with interest, 60,000,000,000 francs; expenses in the present war, 140,000,000,000 and reparations for damages 100,000,000,000 francs.

The Matin declares that France must secure acknowledgment of the debt before examining the way in which it is to be paid. France wants no indemnity profit but all Frenchmen want lawful reparation.

RED CROSS TO PROVIDE LABELS FOR PACKAGES

Washington, Nov. 17.—Under an arrangement announced Saturday by the Red Cross, parents or relatives will be able to send soldiers' Christmas packages even if they do not receive labels from the men by next Thursday. All one has to do if a label is not received is to go before the local chapter of the Red Cross, swear that he or she is the nearest relative of the soldier, and that no label has been received. The local chapter will then issue a label.

Incidentally the latest shipping date of Christmas packages has been extended from November 20 to November 30th.

TRY TO LYNCH NEGRO

ASSOCIATED PRESS TELEGRAM

Winston-Salem, N. C., Nov. 18.—Five persons, two whites and three negroes are known to be dead and twenty persons injured as a result of promiscuous firing here last night when a mob attempted to take a negro from the city jail. The negro is charged with shooting Jim Childress, a farmer, attacking Childress' wife and later shooting Sheriff Flynn.
